

Abstract Topics

You are invited to submit your research on the following diabetes topics:

- Big Data and Artificial Intelligence-Based Decision Support System
- Clinical Decision Support Systems/Advisors
- Closed-loop System, Algorithm, and Artificial Pancreas
- Continuous Glucose Monitoring (CGM) in Practice
- Glucose Sensors
- Human Factor in The Use of Diabetes Technology
- In-Hospital Glucose Monitoring and Advanced Medical Technologies
- Insulin Pumps and other Insulin Delivery Systems: Inhaled, Transdermal, Implanted Devices
- New Insulins
- New Medications for Treating Obesity
- New Medications for Treating Diabetes
- New Technologies for Treating Obesity
- Screening for and Prevention of Type 1 Diabetes
- Screening for and Prevention of Type 2 Diabetes
- Technology and Pregnancy
- Telemedicine, Software, and Similar Technologies
- The Use of Technology in the Advanced Age
- Trials in Progress
- Other
