

# AI-Powered Simulation Training: Mastering Sensitive Discussions on Weight Management

Join UNLOK on a transformative journey with our **free AI-Powered Learning Experience** course, proudly supported by Eli Lilly and Novo Nordisk A/S.

This initiative is set on **equipping healthcare professionals with the finesse to navigate sensitive conversations**, especially for those living with diabetes and obesity.

Harnessing the power of advanced AI, we delve deep into the **subtleties** of your interactions, **analyzing** your communicative delivery and attentiveness. This experience isn't just about learning—it's about evolving and discover more about yourself.

Rating: 5/5

Duration: 15 minutes

## This is what you'll learn:

- Decode the language of your facial expressions and the melody of your voice to understand how those who have diabetes perceive you.
- Cultivate the art of heart-to-heart conversations, nurturing trust and understanding.
- Master the art of sensitive dialogues, bolstering your confidence and elevating care of those dealing with diabetes to new heights.
